Shaping the Future of Home Care

## California Association for Health Services at Home

### Home Care Manager Certificate Program – Wrap Up

As the flagship to CAHSAH’s certificate programs, the Home Care Manager Certificate Program attracted over 35 participants to Anaheim, California for three days of intensive training. The program consisted of two modules, lending itself to both private duty and Medicare-certified providers. The course reviewed local, state and federal regulations, different management styles, marketing trends, budgeting and finance, and human resources. The course also paved the way for attendees to mingle and network with other providers during an evening reception hosted by Care West Insurance. After three days of training, many of the participants stayed after to take the certification examination. To view a full list of Home Care Manager Certificate Program graduates, please visit our website. If you missed the opportunity to take this course, sign up to take the online course.
