

2010 June Coding Classes – It’s a Wrap!

With the main trials and tribulations of OASIS-C implementation behind them, agencies were available again to concentrate on diagnostic coding and reimbursement. In June, attendee favorite Sparkle Sparks led three levels of coding courses spread over two different locations. While the basic and advanced courses had a few tweaks here and there, the intermediate course was completely revamped to include the new OASIS-C guidelines as well as the newly formatted M1024 and 2010 updates.

EVALUATION SUMMARY – Ontario, CA

Session Effectiveness: (1- Low 5-High)	Day 1	Day 2

Testimonials

“I have been away from coding for almost one year (have been an employee health nurse) and am returning to HC this month. This course brought me ‘up to speed’ and I am so much more confident to re-enter my role. Sparkle did an excellent job – like a submission course!” – **Marie Guthrie, Medical Home Care Professionals**

“Though I have taken ICD-9 Coding class in previous years I learn way more in each class than I expect” – **Legacy Kirkland, Sutter VNA**
